## CTC - a Combined Therapy Cocktail

Whilst I believe that all the modalities that I work with and teach are all wonderful I found over the years that in order to have a lasting and true transformation the mind, body and Spirit all need to be treated in one session. This is exactly what the cocktail does. Various modalities are combined to allow healing on all levels. I work with my guides, your guides, my channeling and other metaphysical abilities to create a session that is perfect for you at this time.

The session leaves you feeling free of old emotional issues, empowered motivated more certain of your direction and better able to deal with all situations. You will notice the results immediately. So make a list of all the negative issues and emotions that concern you. On arrival I ask you to read through this list and will notice shifts in your energy field telling me exactly what process you need for each issue. All messages and guidance from your guides and spirit will be passed on to you.

**This 2 hour experience will literally change your life forever.**

This is your life your choice and if you always do what you've always done you'll always get what you always got. So decide now that you deserve more. Allow me to help you let go of the past, live in the present, and create the future you desire. Give yourself a more desirable future.

**Your life changing investment is only AUD\$250**
